"The Coin Machines Merry-Go-Round"

By Bill Gersh

100% FOR THE THIRD WAR LOAN DRIVE

It is the hope of The Cash Box that this industry will go 100% all out in the 3rd War Loan Drive for $15 BILLIONS. No better direct effort in helping to bring about an earlier victory than for everyone engaged in this industry to put every ounce of persuasiveness back of getting as many War Bonds purchased by members of their own organizations as well as by their many retail locations thruout the nation can be demonstrated by this industry at this time.

Coinmen have been foremost in helping every drive that has come along. Music men especially have much to be proud of because of the fine fashion in which they have worked, thru their machines, to help boost sales of War Bonds. As long as it was possible, amusement games men used War Bonds and Stamps for prizes and even had their collectors pay commissions in War Bonds and Stamps instead of cash. Since the Secretary of the Treasury stopped the use of War Bonds and Stamps being awarded as prizes there has been a drop in interest. This can now be most completely rectified by an all out drive to bring this industry into the national limelight by getting everyone to buy until it hurts. Back the attack with the purchase of War Bonds during this 3rd War Loan Drive. Make a solemn pledge that you will give until it hurts.

It is this type of effort that wins the lasting good will of community leaders everywhere in the nation. It is this sort of work that is long remembered by the public and its officials. It will live long afterwards and will prove of tremendously good help to you as a coin machines man. Coinmen who have already jumped to the fore in this drive deserve all the praise that can be heaped upon them. The Cash Box is hoping that you will help us to obtain the names of any coinman who gives his services freely and voluntarily to helping this 3rd War Loan Drive.

PRICE CEILINGS

Even tho there appeared a most complete explanation of how to arrive at your ceiling price under GMPR (as a wholesaler) in our Sept. 14 issue, there still seems to be a few who don't completely understand this method. The Confidential Price Lists which appeared in the Sept. 7th issue of The Cash Box are NOT your ceiling prices. They are, instead, the 1942 market prices. These were compiled to help you obtain your ceiling prices, which OPA requires that you have record of under GMPR.

According to GMPR (General Maximum Price Regulation as amended March 11, 1943) you get your ceiling prices in the following fashion. Check back on your sales as of March 1942 and compile the entire list of machines you sold at that time. For example, if you sold an "Air Force" (5-Ball) in March '42 for $50. this becomes your ceiling price for the Air Force today. Simply then scratch out the price that now appears in The Confidential Price Lists as of Sept. 7th and insert this $50. price in the space left open for that purpose. If you sold the Air Force for $150. in March '42 this becomes your ceiling price. If you made no sale of an Air Force in March 1942 and want to obtain your ceiling price you are then required to take the price of your competitor. That is the price ($99.50) that is listed for the Air Force in the Sept. 7th issue of The Confidential Price Lists, and this, therefore, can become your ceiling price.

These deductions are all based on wholesale prices. As far as we understand we are all wholesalers. Therefore we are all under GMPR. No one has as yet given us any other interpretation. We therefore continue along the lines that we are wholesalers and are exempted for this reason from MPR 429 (the new regulation which went into effect on Sept. 1, 1943).

Of course, if someone should get OPA to define the operator as a "consumer" (and this is not reversed by court action) then a sale to an operator (being then a "consumer" sale) is subject to Maximum Price Regulation 429. The "consumer" in this regulation must be sold a used machine at 75% of the list price of the machine when it was new, if the used machine is in good condition and can be classified as "Class I" merchandise; or 33 1/3% of the new list price if the machine is in poor condition and therefore placed into "Class II".

"The Coin Machines Merry-Go-Round"

Many coinfirms have arranged large bulletin boards on which they have printed, "March 1942 Market Prices", and have tacked up the various sheets which appeared in the Sept. 7th issue of The Confidential Price Lists on these boards. This is not absolutely necessary on the part of wholesalers. Yet this is one way to assure anyone purchasing merchandise from you that your ceiling prices are open for his perusal at anytime he wants to look them over. We believe that this is an ingenious method to assure the people dealing with you that you are complying with GMPR.

EXTRA INCOME

A great many coinfirms have found that their mechanics are among the best in the electrical field and that they can therefore enjoy extra income in a great many corresponding businesses. Some weeks back we published letters from leading coinmen advising that they were now in the "electrical repair" field along with their regular operating business. These men reported that they were winning much respect from their communities due to the fact that they were helping to maintain much of the electrical household items which have become such outstanding necessities in the average American home. At the same time these men were now painting on their trucks, "Electrical Repair Service".

One coinman also advised that he was in the sound equipment field at this time along with his operating. He stated that his men were proving themselves experts in inter-communication systems and that they were winning much praise for their work in this field. Not only have we since received a great many more letters from other readers that they, too, have entered into various such fields in their communities, but that this extra income was helping to take care of their larger overhead. They also advise that because of this sort of work they have been able to obtain the gas and tires they need. There is no doubt, as we have many times stated, that the ingenuity of the nation's coinmen can be depended upon to gain wide acclaim for this industry wherever and whenever an opportunity presents itself.

SECOND WARTIME CONFERENCE

Since the first announcement to the trade of the Second Wartime Conference, which will be held in Chicago, we have received many letters offering some mighty fine suggestions. Most of the men ask that the Second Wartime Conference open on a Monday morning and that the meetings be conducted for three hours each day and for three days. This would mean from 10:00 A.M. to 1:00 P.M., Monday, Tuesday and Wednesday. They also suggest that if possible a luncheon or dinner be arranged for Thursday evening. This sort of program, they write, would give them a better chance to meet and talk with each other during the conference and would also allow them to get back to their offices for the weekend.

The Second Wartime Conference is open to all suggestions. We look forward to receiving some very good ones long in advance of the meet itself. We hope to be able to have everything prepared far in advance of the opening date. The Second Wartime Conference is YOUR conference. It is YOUR opportunity to meet with and discuss problems, obtain suggestions and ideas on how best to proceed from now on in. It is therefore up to YOU to help make this Second Wartime Conference a grand and smashing success by getting every coin machines man you know to participate.

THE GALS AGAIN

For some many months The Cash Box has been preaching the use of mechanically minded women wherever and whenever possible to help cope with the manpower shortage. More and more coinmen have found the gals helpful. Many have them servicing and collecting today and find them especially efficient and trustworthy. True, others have not had much luck with gals, but these are far in the minority.

WMC's new ruling that those engaged in the coin machines industry are non-deferrable puts an entirely new and even more important focus on the gals. There is no doubt that when fathers are taken into the armed services in wholesale lots, gals will be needed to replace this huge manpower loss in this industry. In fact, in all industries there is now an intensive drive to obtain and educate women to take the place of these fast disappearing men. This is even leading to a proposal in Washington that women be drafted for war work.

In the case of this industry the gals are especially important. The leaders in this business realize that women will be needed to replace men. Those men who will be deferred will only be deferred because of the importance of their positions in the war industries. Many mechanic-fathers who are within the draft age are now making a beeline for the war plants. Some of these, who find they can, help out their former employers by reconditioning machines during the night hours, after they are finished with their regular war factory jobs. This is not dependable. Therefore, more and more coinmen are turning to women to help them out when WMC begins to drain more men away from their places.

Once again The Cash Box urges every coinman to hire himself some of these gals who have already enjoyed some mechanical experience and see whether he can't develop

"The Coin Machines Merry-Go-Round"

them into repair as well as service and collection forces. In this fashion he will find that he can continue his business with a much lighter heart and certainly an easier mind.

PREVENT ABUSE

One of our west coast subscribers is using a unique sticker in an attempt to prevent as much abuse of his equipment as he possibly can. This sticker is pasted underneath the playing field glass and reads: "To our patrons...This machine is here for your pleasure. Please do not abuse it. It cannot be replaced until funeral services are held for the damn 'Axis' blockheads. Thank you."

PAT-ON-THE-BACK DEPT.

The following comes from Mack H. Postel, Chicago, Ill., "You are to be greatly commended in your efforts for the coin machine industry's behalf. I know of no other periodical that ever put forth such effort in all the years I've been in the business. You're sure a great and live wire 'bunch'. My hat's off to you fellows."

COIN MACHINES FUTURE

Every division of this industry looks eagerly to the future. The belief is general that the equipment which the manufactories will produce when the war is won and the great new numbers of men who will enter into this industry will bring about the biggest profits that the men who know this business will ever enjoy. It would be a tremendous dissappointment to a great many now engaged in this industry to see anything but the finest sort of machines and merchandising plans forthcoming when the war is finished.

Yet all of us must realize that this total war has been greatly destructive as far as many immediate plans for the future are concerned. At the present time a great many of us are thrilled with the highly imaginative designs which artists have been sketching and presenting to the public thru the advertisements of leading firms in national magazines. These are their conception of what the future holds. But this is not logical nor at all true as far as the manufactories generally are concerned. The average manufacturer is entirely too engrossed with the job he is doing at present to even study or think about the pretty and imaginative drawings that the artists in his advertising departments are producing.

As Charles F. Kettering of General Motors stated some weeks ago, "Whether the public likes it or not we shall still have to produce our last (1942) models when the war is over for sometime prior to introducing anything new or especially revolutionary".

It is the better part of good judgment for the trade not to look forward to immediately seeing any extremely revolutionary items presented within 12 to 18 months after the war is won. It will take a great many months (if not years) for such entirely revolutionary productions to be completely tested and proven, prior to presentation. The trade must realize that it cannot expect to instantly see such improvisations. It must contain itself to the point where it will be first certain of obtaining the type of equipment best suited to its instant needs. Prices must once again revert to norm. The industry must gradually reestablish itself. The factories (and many new ones will enter into the field) must first become more easily distinguishable. The distributing, jobbing and operating divisions must become much more clarified. After that there is no doubt that many great and revolutionary developments will be presented.

USED CAR CEILINGS

A great many coinmen bitterly pointed to the used car field as one reason why the coin machines industry should not have a price ceiling. Tho the used car men are now also protesting the price ceilings which have just been imposed upon them by OPA they admit that some cars of the $830. class (as new delivered in N.Y.C.) were getting from $1,000 to $1,500. on the west coast. It was also noted that this price increase had come into effect since the spring of '42.

This somewhat parallels the coin machines industry. It proves once again that each industry must accept a certain amount of regulation. The very fact that the used car dealers were extremely liberal with their "wanted to buy" ads in newspapers thruout the country attracted much attention to them. This idea of using "open" publications has affected the used cars field now as much as it has the coin machines field and has made the inner workings of both fields common public knowledge which has proven to be detrimental to the best interests of both fields.

OPA ALLOWS CIGGY PRICE INCREASE

OPA has allowed a price increase on economy brand cigarettes due to increased manufacturing costs. Among the brands that were allowed to increase their retail price to 13¢ or 12½¢ for sales of two or more packs at one time are: Avalon, Domino, Beech-Nut, Marvel, Paul Jones, Sensation, Twenty Grand and Wings. This means a new commission set-up for cigarette machine men. Many of the 12 and 15 column machines are featuring some of these cigarettes.

A (1943) COPYRIGHTED FEATURE OF "THE CASH BOX" 381 FOURTH AVE., NEW YORK

The Third War Loan Drive is now on - and your Uncle Sam wants $15,000,000,000.00. Coinmen have always backed up every drive. Here's your chance to really go to bat. You should not only buy bonds, but should organize those in your community to further the success of the drive. As one commentator stated, "Altho the slogan is 'back the attack with war bonds' it really is 'join the attack with war bonds'."

BILL RODSTEIN, of the Amusement Machine Association of Philadelphia, Pa., reports that his organization has already donated over 420,000 cigarettes to the boys overseas and will continue to add to this total periodically.

PAST performance is the foundation on which operators and distributors base their faith in the future . . . their confidence that the organization which created *Rocket* (which is pictured above for old time's sake), *Airway, Action, Jumbo, Bumper, Bally Reserve* and other historic Bally games can be counted on to bring forth successful games and venders in the days of victory and peace to come.

PRESENT production at the Bally* plant is one hundred per cent for Uncle Sam. Night and day, seven days a week, the Bally* organization is producing vital equipment for the Army and Navy . . . and proving that the technical skill developed in peace-time design and production of coin-operated games and venders is a valuable asset to America in time of war.

FUTURE plans of the Bally organization call for quick production of new games and venders immediately after the defeat of the Axis . . . and for exploitation of marvelous new electrical principles developed by war-time technology. In the post-war era, as in the past, "you can bank on Bally" for the newest in money-making games and venders of all types.

**Wor products monufactured by the Bally organization ore on contracts in the name of Lian Mfg. Corporotian, of which Bally Mfg. Company is a subsidiary.*

NOTICE

MARCH, 1942, MARKET PRICES APPEARED IN THE SEPTEMBER 7, 1943 ISSUE. PRICES LISTED ARE CURRENT WEEK'S MARKET PRICES.

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

6—Means no prices quoted for this machine for past two weeks.
7—Means no prices quoted for this machine for past three weeks.
8—Means no prices quoted for this machine for past four weeks or longer.
